From the Daily Item, July 10.

In the issue of July 1st the change that had just gone into effect as to Road Masters on the various divisions of the Atlantic Coast Line, by the operation of which Capt. A. N. Freeland lost his position as Road Master of the Western Division, was mentioned. At that time the writer was led to believe that the changes had been made for the purpose of economizing. It was generally thought very strange that the Coast Line officials should drop a man who had been in the employ of the road so long and possessed of the experience and good judgment of Capt. Freeland, but it was supposed that they knew their business. Since the announcement of the changes were made, however, various reports and rumors as to the probable cause of Capt. Freeland's removal have crept into circulation. Wishing to obtain the facts the writer called on Capt. Freeland and asked him the direct question, "Why were you removed from office?" But no light could be obtained from him, for he is as thoroughly in the dark as to the cause of his removal as the public. The reports in circulation can do Capt. Freeland no harm in Sumter or where he is as well known as he is here, but elsewhere he may be injured by the circulation of such reports. We trust that Capt. Freeland will be in a position at an early day to clear up the situation and set every thing straight.

Fire.

A negro tenement house on Sumter Street, between Republican and Canal Street, was burned on Saturday night. The alarm was given about 9 30 o'clock and the reels turned out at once. The fire was confined to the loft of the house and was difficult to reach with the streams of water, but by the use of axes and hooks the gable end of the house was knocked out and the fire was extinguished. The negro woman who occupied the house came up about the time the fire was gotten under control and raised a tremendous din about her children who had been left in the house. The children, however, had been removed to a place of safety when the fire was first discovered. A greater part of the furniture was removed from the house by neighbors.

One of the reel squads manned by negroes threw the first stream of water, closely followed by Monaghan squad. The good work of the fire department saved a large number of tenement houses from destruction, for that vicinity is a regular nest of small houses, and in close proximity are Epperson's stables.

The residence of Mrs. Annie R. Cain, of Privater, was burned about 1 A. M., Tuesday, 9th inst., and very little of the contents of the house were saved. The inmates succeeded in saving a part of their clothing, but all of the furniture was lost. The fire is supposed to have originated from the kitchen flue. The house was occupied at the time by Mr. Scott George, who had bought the place from Mrs. Cain, and made a part payment on it. Whether the house was insured has not been ascertained. It was not insured with either the agency of A. White & Son or that of The A. C. Phelps Co.

The false alarm of fire Monday night routed out many of the enthusiastic volunteer firemen, who believe in the maxim, "early to bed, etc." They were seriously disappointed when they found no fire to fight. It has been a question all the morning as to how the alarm originated. "They say," which is very poor authority, that "somebody yelled, just so, and then somebody else thought that the first somebody was giving the fire alarm, so somebody else began to yell fire." A very lucid explanation, truly, but not very satisfactory when you want to know all about it.

Delgar Reel Squad.

Delgar Reel Squad met Monday night and elected officers as follows:

Foreman—W. S. Graham.
Assistant Foreman—A. G. Flowers.
Secretary and Treasurer—I. H. Moses.

The squad is assigned for fire purposes as follows:

Hydrant—E. O. Ingram, Henry Hill, Graham Moses, I. H. Moses.

Nozzle—George McKagan, Howard Dickson, A. G. Flowers, John B. Miller.

Axemen—Sol Ryttenberg, George Foxworth.

Salvage Corps: N. G. Osteen, Jr., Louis Lyons, Douglas China.

The squad is anxious to arrange the race with the Independent squad of Columbia, and if the race can be arranged, Orangeburg will be selected as a place of meeting, and an excursion will run to that place when the race is pulled off.

A Narrow Escape.

On Monday afternoon a little child of Mrs. Lucius Bultman came very near losing its life beneath the hoofs of a horse at the corner of Main and Blanding streets. The little one ran out in front of a buggy coming up street driven by a gentleman from the country. It was knocked down by the horse. The driver pulled the horse up, and as the animal backed it came very near mashing the little one, one hoof "pinching" the child's body. A lady, Mrs. Manigault, rescued the child from its perilous position, but was herself knocked down by a man who ran to the assistance of both herself and the child.—The State.

Water melons are cheap and plentiful.

It is buckberries that the early morning visitor wishes to sell this week.

The rain last night was a life-and-knot floater.

The mid-summer crop of mosquitoes is ripe and a few of them are loose in Sumter.

That new bicycle track has failed to materialize most dismally.

Green Swamp is a favorite bathing place. The boys go down "after six."

The stock of the Sumter Manufacturing Company is being taken right along, and the subscribers are paying the first instalment.

Sumter is beginning to have a multiplicity of secret and benevolent societies. All of them are on a good basis.

There are very few of the box cars left on the C. S. & N. yards, and everything in that neighborhood has a dismantled appearance.

Blight is beginning to appear on apple and pear trees in this section. The disease, which is very disastrous to pear orchards, is said to be caused by a small black beetle.

Constables Brown and Nunnamaker raided the place of S. F. Hurst on Liberty Street, Monday afternoon in search of liquor. No liquor was found, however, and the place could not be proven to be a blind tiger. A crowd of boys collected to see the fun, but nothing funny or interesting occurred.

During the severe storm Monday night the electric lights were several times interfered with by the lightning, but despite all competition the little engine panted on and kept the city lighted. Several very heavy electrical discharges took place in the city but no damage was done to persons or property.

The colored firemen of this city will run an excursion from Mayesville to Augusta, Ga., on August 1st. The round trip will cost \$1.75.

The rainfall Sunday afternoon was the heaviest that has visited this section in months. Fortunately it did not continue long and no damage was done; in fact, it was beneficial. The rain was not general, however, and three miles from this city corn is suffering for rain.

A number of shade trees have died, both in this city and throughout the county, since the opening of spring, and others are still dying. This may be the result of the severe winter, but no satisfactory explanation has been given.

Tobacco curing is in progress all over the county, and those planters who delayed getting flues for their barns until the last moment have been in trouble, for the supply was exhausted. Some days ago, the writer heard a farmer complaining that his tobacco crop was ready to be cured but he could not get flues. Since then he has obtained the flues and is happy.

At the request of the A. C. L. Attorney, J. W. Arms, Esq., of Kingstree, Trial Justice Wells dismissed the cases against George Elliott and George Vaughn, who were charged with robbing freight cars on the A. C. L. The preliminary was set for Thursday, but the railroad people did not have sufficient evidence to establish a case, and the men were discharged on their own recognizance.

The Farmers' Insurance Association of Sumter will have a picnic near St. Charles on Thursday, July 25th. At the same time the annual elections of officers will be held and changes in by-laws proposed. It is hoped there will be a full attendance, as this is an institution that should be kept up, and business will not run itself if the members do not turn out and show their interest in it.

Major M. Moise and Dr. Abbott have been invited to make addresses on that occasion, on the advantages of co-operation.

A Grandmother on Gum Chewing

Editor Watchman and Southron:

I was exceedingly pleased to see your animadversion on the disgusting habit of gum chewing, once entirely unknown to the ladies of South Carolina and the subject of ridicule by them when noticed in the ladies (?) of other States. It is a habit vulgar to the extreme, and should be frowned down by all members of good society. By continuing your crusade against it you will much oblige

A GRANDMOTHER

A couple of tomatoes were exhibited at this office Monday which weighed 21 and 26 ounces, respectively. They were raised in the garden of Rev. J. G. Sampson, of this city.

Lumber is being hauled for the erection, of a church building for the congregation of Mt. Zion Baptist Church, colored. The church will be located on Council Street.

The machinery at the Sumter Brick Yard was started up Monday morning after a shut down of several months. The machines have a capacity of 25,000 brick per day, and the brick turned out are of first class quality. The stock of brick on hand has been reduced by sales and a quantity will be made to supply the demand through the fall and winter.

The Baptist Young Peoples' Union was organized Friday afternoon at a meeting of the young people of the Baptist congregation, held at the residence of Dr. John S. Hughes. Miss Julia Cuttino was elected leader, W. F. Rhame, lecturer, and A. G. Flowers, secretary.

Tom Hussey and an old man of the name of Wells had a personal difficulty Wednesday afternoon that terminated by Hussey attacking Wells and giving him a severe beating. While Hussey was beating old man Wells, a son of Wells, about ten years old, went to his father's assistance, and stabbed Hussey in the back with a barlow knife. He inflicted a severe wound in the back, just below the shoulder blade, from which Hussey lost considerable blood. It is feared that the knife penetrated to the cavity, but this is not known to be a positive fact. Wells is not less than 60 years old, and not a robust man while Hussey is a robust fellow.

The idea has been advanced that the road bed of the old C. S. and N. R. R. from the W. C. and A. track to Brunson's sash, blind and door factory, would make an excellent roadway at a slight expense. The track has been torn up and all the cross-ties removed, so that all that would be needed would be to level the irregularities left when the cross-ties were taken up.

Cigarette smoking by women and girls is not confined to the North by any means. It is a disgusting fact that there are quite a number of girls to be found in almost any town, Sumter not excepted, who smoke cigarettes, on the sly, with as much gusto as the street gamins whose greatest pleasure it is to "shoot a snipe." Nicotine stained fingers give away the secret to the observant eye, even when walking casually down the street.

BAD TIMES;

Well, we should say so. Those clocks and watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time too, if you're unprovided with good clocks and watches. We have a full supply of both, all accurate time keepers and in perfect order. Better watches than ours are not manufactured. They run so well that they're always right. So are our clocks. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece, get the best, get our.

They are the coolest things ever seen afoot, and in summer coolness is comfort. There's a point about our summer shoes—their durability. To state the case fully, there's so much wear in them that they outlast the season. We have shoes for all, young and old, men and women, for all occasions and sorts of wear, work, business, and pleasure.
